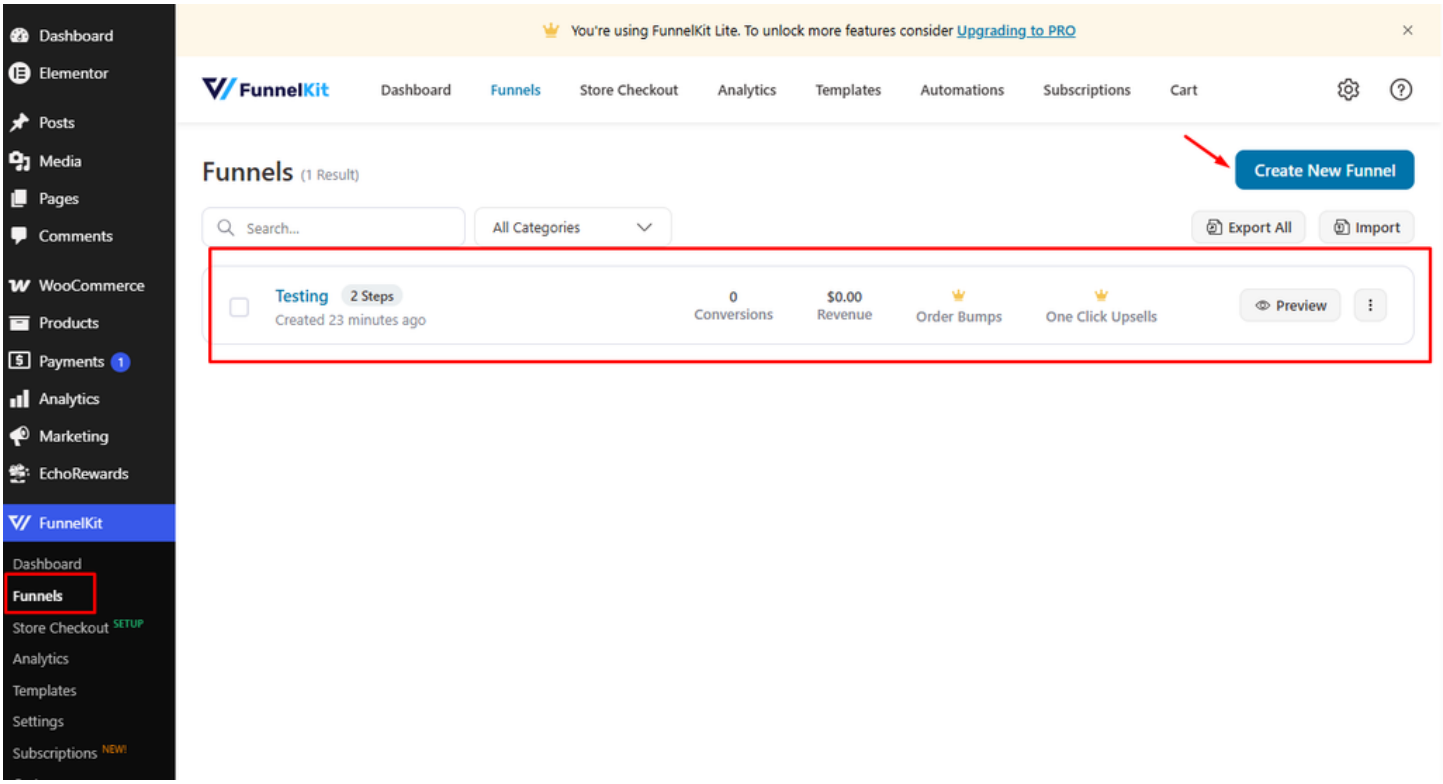
How to use EchoRewards with WPFunnels & FunnelsKit

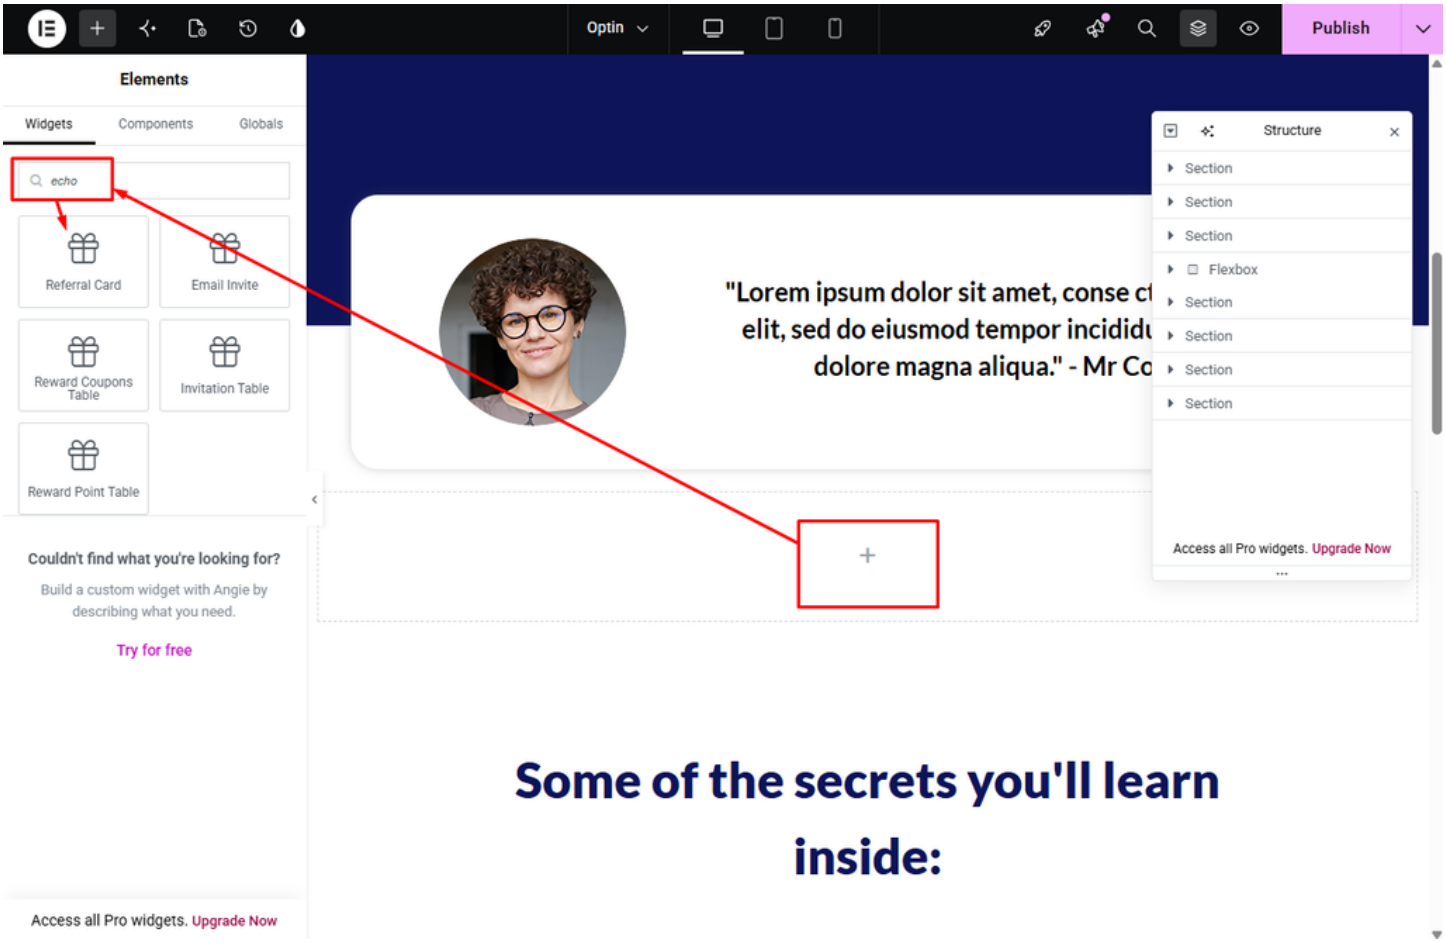
EchoRewards Docs · https://echorewards.pro/docs/how-to-use-echorewards-wpfunnels-funnelskit/

EchoRewards can help elevate user engagement and enhance sales within your online business when combined with WPFunnels or FunnelsKit.

Navigate to the **WordPress Dashboard > WP Funnels > Funnels.** Once you're there, add a new funnel or edit your existing funnel.



Then select the funnel template where you want to add the EchoRewards blocks. Then click on the " +" icon and type EchoRewards in the search field to add the preferred block from the available blocks.



Customize the block settings as desired and save or update them to apply the changes.
